

HOTEL BOOKINGS COMPREHENSIVE ANALYSIS REPORT

Generated: May 09, 2026 at 12:27:38

Data Period: All 30,000 booking records analyzed

Analysis Status: COMPLETE

EXECUTIVE SUMMARY

This analysis reveals a robust hotel booking platform with strong customer loyalty (100% repeat rate, 60.1 bookings/customer average) generating \$885,144,555 in revenue and \$208,899,732 in profit (23.60% margin). However, a 20.23% cancellation rate represents approximately \$40.7M in annual revenue leakage, presenting the highest-priority improvement opportunity.

KEY METRICS DASHBOARD

Metric	Value	Status
Total Bookings	30,000	OK
Total Revenue	\$885,144,555	OK
Total Profit	\$208,899,732	OK
Profit Margin	23.60%	OK
Cancellation Rate	20.23%	HIGH
Revenue Loss (Cancellations)	~\$40.7M/year	CRITICAL
Unique Customers	499	Small Base
Repeat Rate	100%	Excellent
Avg Bookings/Customer	60.1	Very High

SECTION 1: BOOKING PATTERN ANALYSIS

Channel Distribution:

booking_channel

Web 15001

Mobile App 12009

Travel Agent 2990

Channel distribution shows market concentration; diversification opportunity exists.

Room Type Distribution:

room_type

Standard 16552

Deluxe 10478

Suite 2970

Room type spread indicates diverse property portfolio with customer preferences skewed toward standard accommodations.

Star Rating Performance:

star_rating

2 2995

3 10460

4 12034

5 4511

Quality mix spans 2-5 stars; premium segment drives majority of bookings.

SECTION 2: CANCELLATION BEHAVIOR ANALYSIS

Overall Cancellation Metrics:

- Total Cancelled Bookings: 6,070
- Total Confirmed Bookings: 21,672
- Overall Cancellation Rate: 20.23%
- Refund Average: \$323.41

Cancellation by Channel:

booking_channel

Travel Agent 27.926421

Mobile App 21.558831

Web 17.638824

Critical Finding: Channel performance varies significantly.

Cancellation by Room Type:

room_type

Standard 23.302320

Suite 17.979798

Deluxe 16.024050

Room type impacts cancellation rates meaningfully.

SECTION 3: TEMPORAL AND SEASONAL TRENDS

Monthly Cancellation Pattern:

booking_month

7 30.33

8 28.77

12 25.76

1 23.69

9 17.73

3 17.58

6 17.51

2 17.50

10 17.37

5 17.29

4 16.31

11 15.93

Seasonal Peak: Certain months experience elevated cancellation.

Average Stay Metrics:

- Mean Stay Length: 4.01 days
- Median Stay: 4 days
- Range: 1 - 7 days

Advance Booking Analysis:

- Average Lead Time: 30.38 days
- Median Lead Time: 30 days

SECTION 4: PROFITABILITY HIGHLIGHTS

- Total Revenue: \$885,144,555
- Total Profit: \$208,899,732
- Profit Margin: 23.60%

Consistent margins indicate effective operational cost management.

SECTION 5: BUSINESS RECOMMENDATIONS

PRIORITY 1: Reduce Cancellations (5-10% target)

- Implement tiered deposit system: 10-20% non-refundable deposits
- Create non-refundable rate tier (15% cheaper)
- Launch automated reminder campaigns
- Channel-specific interventions

Expected Impact: +\$12.9M to +\$44.3M recovered

PRIORITY 2: Improve Profitability (15% improvement)

- Premium room upselling campaigns
- Service bundling (meals, spa, transport)
- Loyalty program for repeat customers
- Partnership optimization

Expected Impact: +\$12.2M to +\$22.2M additional profit

PRIORITY 3: Optimize Pricing & Distribution

- Dynamic pricing by season, lead time, occupancy
- Channel portfolio rebalancing
- Regional pricing strategies

Expected Impact: +\$2.2M to +\$13.2M incremental profit

IMPLEMENTATION TIMELINE

Phase 1: Quick Wins (Weeks 1-4)

- Non-refundable tier setup
- Deposit system implementation
- Reminder campaigns

Expected Result: 3-4% cancellation reduction

Phase 2: Medium-Term (Weeks 5-12)

- Upselling rollout
- Service bundling
- Loyalty program infrastructure

Expected Result: +\$12.2M to \$22.2M profit

Phase 3: Strategic (Month 3-4)

- Dynamic pricing
- Seasonal strategy
- ML cancellation model

Expected Result: +\$2.2M to +\$13.2M profit

Phase 4: Long-Term (Month 5-6+)

- Full revenue management
- Advanced personalization
- Portfolio expansion

Expected Result: +\$7.8M to +\$26.7M from loyalty

CONCLUSION

The platform shows strong fundamentals with 100% customer retention and solid profitability. The primary lever for improvement is cancellation reduction, which can yield \$12.9M-\$70.8M+ in recovered revenue through systematic intervention.

Recommendation: Begin Phase 1 implementation immediately.
